2017 Section 508 Report

Chapter 3: Functional Performance Criteria (FPC)

Criteria	Conformance Level	Remakes and Explanations
302.1 Without vision	Does not support	There are many functions that cannot be completed via the keyboard because the user interface controls do not provide enough information to the screen readers.
302.2 With limited vision	Supports	The application will work with assistive technologies that provide magnification.
302.3 Without perception of color	Supports	The application uses color as a means of drawing attention and not as the only means of conveying information.
302.4 Without hearing	Supports	The application does not include audio.
302.5 With limited hearing	Supports	The application does not include audio.
302.6 Without speech	Supports	User speech is not required for operation.
302.7 With limited manipulation	Supports	The application supports standard input mechanisms.
302.8 With limited reach and strength	Supports	The application supports standard input mechanisms.
302.9 With limited language, cognitive and learning abilities	Supports	The application uses standard interface mechanisms that would be familiar to most individuals.

Chapter 4: Hardware

Note: This section is not relevant for this product. This is a software application.

Chapter 5: Software

Criteria	Conformance Level	Remakes and Explanations
501.1 Sope – incorporatin of WCAG 2.0 AA	See WCAG 2.0 section	See information in WCAG section.
502 Interoperability with assistive technology	Heading cell – no response required	Heading cell – no response required.
502.2.1 User control of accessibility features	Not applicable	The application is not a platform.
502.2.2 No disruption of accessibility feature	Supports	The application does not disable or disrupt accessibility features of the Miscrosoft Windows operating system and assistive technologies.
502.3 Accessibility servies	Heading cell – no response required	Heading cell – no response required.
502.3.1 Object information	Does not support	The application provides very limited programmatic exposure.
502.3.2 Modification of object information	Does not support	The application provides very limited programmatic exposure.
502.3.3 Row, column and headers	Does not support	The application provides very limited programmatic exposure.
502.3.4 Values	Does not support	The application provides very limited programmatic exposure.
502.3.5 Modification of values	Does not support	The application provides very limited programmatic exposure.
502.3.6 Label relationships	Does not support	The application provides very limited programmatic exposure.
502.3.7 Hierarchical relationships	Does not support	The application provides very limited programmatic exposure.
502.3.8 Text	Does not support	The application provides very limited programmatic exposure.
502.3.9 Modifications of text	Does not support	The application provides very limited programmatic exposure.
502.3.10 List of actions	Does not support	The application provides very limited programmatic exposure.
502.3.11 Actions on objects	Does not support	The application provides very limited programmatic exposure.
502.3.12 Focus cursor	Does not support	The application provides very limited programmatic exposure.
502.3.13 Modification of focus cursor	Does not support	The application provides very limited programmatic exposure.
502.3.14 Event Notifcation	Does not support	The application does not make changes in a component's state(s), value, name, description, or boundary, available to assistive technology.
502.4 Platform accessibility features	Not applicable	Heading cell – no response required.
503 Applications	Heading cell – no response required	Heading cell – no response required.
503. 2 User preferences	Supports	The application does not override user selected preference settings.
503.3 Alternative user interface	Not applicable	No alternative user interfrace is provided.
503.4 User controls for capations and audio description	Heading cell – no response required	Heading cell – no response required
503.4.1 Caption controls	Not applicable	The application does not include audio.
503.4.2 Audio description controls	Not applicable	The application does not include audio.
504 Authroing tools	Heading cell – no response required	Heading cell – no response required
504.2 Content creating or editing (if not authoring tool, enter “not applicable”)	See WCAG 2.0 section	See information in WCAG section.

504.2.1 Preservation of information provided for accessibility in format conversion	Not applicable	The application is not an authoring tool.
504.2.2 PDF export	Not applicable	The application is not an authoring tool.
504.3 Prompts	Not applicable	The application is not an authoring tool.
504.4 Templates	Not applicable	The application is not an authoring tool.

Chapter 6: Support Documentation and Services

Criteria	Conformance Level	Remakes and Explanations
601.1 Scope	Heading cell – no response required	Heading cell – no response required.
602 Support documentation	Heading cell – no response required	Heading cell – no response required.
602.2 Accessibility and compatibility features	Does not support	The application does not contain built-in accessibility and compatibility features.
602.3 Electronic support documentation	See WCAG 2.0 section	See information in WCAG section.
602.4 Alternative formats for non-electronic support documentation	Supports	Product support documentation is available in electronic portable document format (PDF) and HTML format is included in the application. Standard operating system accessibility features can be used to render the PDFs in alternative formats, such as text-to-speech readers.
603 Support services	Heading cell – no response required	Heading cell – no response required.
603.2 Information on accessibility and compatibility features	Does not support	The application does not contain built-in accessibility and compatibility features.
603.3 Accommodation of communication needs	Supports	Technical support is available by telephone, web and email.

Chapter 4: 4.2 Functional Performance Statements (FPS)

Criteria	Conformance Level	Remakes and Explanations
4.2.1 Usage without vision	Does not support	There are many functions that cannot be completed by the keyboard because the user interface controls do not provide enough information to the screen readers.
4.2.2 Usage with limited visions	Supports	The application will work with assistive technologies that provide magnification.
4.2.3 Usage without perception of color	Supports	The application uses color as a means of drawing attention and not as the only means of conveying information.
4.2.4 Usage without hearing	Supports	The application does not include audio.
4.2.5 Usage with limited hearing	Supports	The application does not include audio.
4.2.6 Usage without vocal capability	Supports	User speech is not required for operation.
4.2.7 Usage with limited manipulation or strength	Supports	The application supports standard input mechanisms.
4.2.8 Usage with limited reach	Supports	The application supports standard input mechanisms.
4.2.9 Minimize photosensitive seizure triggers	Supports	There are no blinking texts, objects or other elements that violate this requirement.
4.2.10 Usage with limited cognition	Supports	The application uses standard interface mechanisms that would be familiar to most individuals.
4.2.11 Privacy	Supports	The application does not make use of a user's personal information.

Chapter 5: Generic Requirements

Criteria	Conformance Level	Remakes and Explanations
5.1 Closed functionality	Heading cell – no response required	Heading cell – no response required.
5.1.2 General	Heading cell – no response required	Heading cell – no response required.
5.1.2.1 Closed functionality	See 5.2 through 13	See information 5.2 through 13.
5.1.2.2 Assistive technology	See 5.1.3 through 5.1.6	See information 5.1.3 through 5.1.6.
5.1.3 Non-visual access	Heading cell – no response required	Heading cell – no response required.
5.1.3.1 General	Not applicable	The application does not have closed functionality.
5.1.3.2 Auditory output delivery including speech	Not applicable	The application does not have closed functionality.
5.1.3.3 Auditory output correlation	Not applicable	The application does not have closed functionality.
5.1.3.4 Speech output user control	Not applicable	The application does not have closed functionality.
5.1.3.5 Speech output automatic interruption	Not applicable	The application does not have closed functionality.
5.1.3.6 Speech output for non-text content	Not applicable	The application does not have closed functionality.
5.1.3.7 Speech output for video information	Not applicable	The application does not have closed functionality.
5.1.3.8 Masked entry	Not applicable	The application does not have closed functionality.
5.1.3.9 Private access to personal data	Not applicable	The application does not have closed functionality.
5.1.3.10 Non-interfering audio output	Not applicable	The application does not have closed functionality.
5.1.3.11 Private listening	Not applicable	The application does not have closed functionality.
5.1.3.12 Speaker volume	Not applicable	The application does not have closed functionality.
5.1.3.13 Volume reset	Not applicable	The application does not have closed functionality.
5.1.3.14 Spoken languages	Not applicable	The application does not have closed functionality.
5.1.3.15 Non-visual error identification	Not applicable	The application does not have closed functionality.
5.1.3.16 Receipts, tickets and transactional outputs	Not applicable	The application does not have closed functionality.
5.1.4 Functionality closed to text enlargement	Not applicable	The application does not have closed functionality.
5.1.5 Visual output for auditory information	Not applicable	The application does not have closed functionality.
5.1.6 Operation without keyboard interface	Heading cell – no response required	Heading cell – no response required.
5.1.6.1 Closed functionality	See 5.1.3.1 through 5.1.3.16	See information 5.1.3.1 through 5.1.3.16.
5.1.6.2 Input focus	Not applicable	The application does not have closed functionality.
5.2 Activation of accessibility features	Not applicable	The application has no specific accessibility features.
5.3 Biometrics	Supports	The application doesn not make use of biometric characteristics.
5.4 Preservation of accessibility information during conversion	Not applicable	The application has no specific accessibility features.

5.5 Operable parts	Heading cell – no response required	Heading cell – no response required.
5.5.1 Means of operation	Not applicable	This is a software application, and it does not have operable parts.
5.5.2 Operable parts discernibility	Not applicable	This is a software application, and it does not have operable parts.
5.6 Locking or toggle controls	Heading cell – no response required	Heading cell – no response required.
5.6.1 Tactile or auditory status	Not applicable	This is a software application, and it does not have locking or toggling mechanisms.
5.6.2 Visual status	Not applicable	This is a software application, and it does not have locking or toggling mechanisms.
5.7 Key repeat	Not applicable	This application does not have built-in key repeat functionality.
5.8 Double strike key acceptance	Not applicable	This is a software application, and it does not have specific hardware associated with it.
5.9 Simultaneous user actions	Supports	The application does not require simultaneous user actions.

Chapter 6: ICT With Two-Way Voice Communication

Note: This section is not relevant for this product. The application does not support tow-way voice communication.

Chapter 7: ICT With Vodep Capabilities

Note: This section is not relevant for this product. The application does not include video capabilities.

Chapter 8: Hardware

Note: This section is not relevant for this product. This is a software application.

Chapter 9: Web (See WCAG 2.0 Section)

Chapter 10: Non-web Documents

Criteria	Conformance Level	Remakes and Explanations
10.1 General	Heading cell – no response required	Heading cell – no response required.
10.2 Document success criteria	Heading cell – no response required	Heading cell – no response required.
10.2.1 through 10.2.38	See WCAG 2.0 section	See information in WCAG section.
10.2.39 Captions positioning	Not applicable	The application does not contain multimedia content.
10.2.30 Audio description timing	Not applicable	The application does not contain multimedia content.

Chapter 11: Software

Criteria	Conformance Level	Remakes and Explanations
11.2.1 Software success criteria (excluding closed functionality)	See WCAG 2.0 section	See information in WCAG section.
11.2.2 Software success scriteria (closed functionality)	See WCAG 2.0 section	See information in WCAG section.
11.3 Interoperability with assistive technology	Heading cell – no response required	Heading cell – no response required.
11.3.1 Closed functionality (informative)	Heading cell – no response required	Heading cell – no response required.
11.3.2 Accessibility services	Heading cell – no response required	Heading cell – no response required.

11.3.2.1 Platform accessibility service support for software that provides a user interface	See 11.3.2.5 through 11.3.2.17	See information 11.3.2.5 through 11.3.2.17.
11.3.2.2 Platform accessibility service support for assistive technologies	See 11.3.2.5 through 11.3.2.17	See information 11.3.2.5 through 11.3.2.17.
11.3.2.3 Use of accessibility services	Does not support	The application does not make use of accessibility services.
11.3.2.4 Assistive technology	Not applicable	The application is not assistive technology.
11.3.2.5 Object information	Does not support	The application provides very limited programmatic exposure.
11.3.2.6 Row, column and headers	Does not support	The application provides very limited programmatic exposure.
11.3.2.7 Values	Does not support	The application provides very limited programmatic exposure.
11.3.2.8 Parent-child relationships	Does not support	The application provides very limited programmatic exposure.
11.3.2.10 Text	Does not support	The application provides very limited programmatic exposure.
11.3.2.11 List of available actions	Does not support	The application provides very limited programmatic exposure.
11.3.2.12 Execution of available actions	Does not support	The application provides very limited programmatic exposure.
11.3.2.13 Tracking of focus and selection attributes	Does not support	The application provides very limited programmatic exposure.
11.3.2.14 Modification of focus and selection attributes	Does not support	The application provides very limited programmatic exposure.
11.3.2.15 Change notification	Does not support	The application does not make changes in a component's state(s), value, name, description, or boundary, available to assistive technology.
11.3.2.16 Modifications of status and properties	Does not support	The application provides very limited programmatic exposure.
11.3.2.17 Modifications of values and text	Does not support	The application provides very limited programmatic exposure.
11.4 Documented accessibility usage	Heading cell – no response required	Heading cell – no response required.
11.4.1 User control of accessibility features	Not applicable	The application is not a platform.
11.4.2 No disruptions of accessibility features	Supports	The application does not disable or disrupt accessibility features of the Microsoft Windows operating system and assistive technologies.
11.5 User preferences	Supports	The application does not override user-selected preference settings.
11.6 Authoring tools	Heading cell – no response required	Heading cell – no response required.
11.6.1 Content technology	Heading cell – no response required	Heading cell – no response required.
11.6.2 Accessible content creation (if not authoring tool, enter “not applicable”)	See WCAG 2.0 section	See information in WCAG section.
11.6.3 Preservation of accessibility information in transformations	Not applicable	This application is not an authoring tool.
11.6.4 Repair assistance	Not applicable	This application is not an authoring tool.
11.6.5 Templates	Not applicable	This application is not an authoring tool.

Chapter 12: Documentation and Support Services

Criteria	Conformance Level	Remakes and Explanations
12.1 Product documentation	Heading cell – no response required	Heading cell – no response required.
12.1.1 Accessibility and compatibility features	Does not support	The application does not contain built-in accessibility and compatibility features.
12.1.2 Accessible documentation	See WCAG 2.0 section	See information in WCAG section.
12.2 Support services	Heading cell – no response required	Heading cell – no response required.
12.2.2 Information on accessibility and compatibility features	Does not support	The application does not contain built-in accessibility and compatibility features.
12.2.3 Effective communication	Supports	Technical support is available by telephone, web and email.
12.2.4 Accessible documentation	See WCAG 2.0 section	See information in WCAG section.
